

Ex Inspection Services Certified Equipment Surveys & Maintenance

OEG Offshore's qualified and experienced team of technicians can provide a comprehensive range of services for inspection and maintenance of Ex equipment compliant with EN 60079-17:2014.

All our technicians are fully CompEx Certified with considerable hands on experience of our own and customer Ex equipment. With extensive experience in the offshore oil and gas industry we continue to provide a wide range of maintenance services to our global clients:

- Survey & data gathering of Ex equipment
- Healthcare & audit checks on Ex equipment
- Client Ex register management
- Visual and detailed inspections of Ex Equipment
- Provision of planned inspection and maintenance schedules
- Installation and testing of High Voltage electrics

For more information on how OEG Offshore can help with inspection and maintenance of electrical installations within hazardous areas, contact the OEG Offshore team.

Client Ex Register Management Services

A60 Engineering Cabin Maintenance, Refurbishment & Servicing

With over 25 years experience in managing and maintaining our own fleet of A60 engineering cabins, we have a unique combination of skills and expertise that allows us to offer comprehensive cabin maintenance, refurbishment and servicing.

This service can be provided on an ad-hoc basis for the servicing or refurbishment of a single cabin or we can provide a turnkey fleet management solution that allows you to concentrate on core activities in the knowledge that your fleet is in safe hands. Our fleet management service is based upon

a planned, fixed-price, long term programme which covers routine cabin maintenance, agreed upgrades or refurbishments, regular servicing, ongoing compliance with regulatory codes and full on-line certification.

Further options include spare part support, damage waiver cover, ISO connectors and hook-up cable, provision of stairs and platforms as well as assistance with transportation and offshore installation and hook-up.

For more information contact the cabin maintenance team.
