

OEG Offshore's **Recycle the Gulf** is an environmental program designed to reduce and recycle waste generated offshore in the Gulf of Mexico. Utilizing OEG's Enviro-Pak waste compactor product line, recyclables can be collected, sorted and compacted on the rig.

All recyclables are donated to a Louisiana-based partner, The Arc of Acadiana, an organization dedicated to improving the lives of people with developmental disabilities.

Protecting the Environment

- > To-date, program participants have recycled 12+ million pounds
- > Assists companies with MARPOL 73/78 and ISO 14001 compliance
- > EPA Gulf Guardian Award winning program (2004)

Enhancing Corporate Responsibility

- > Socially responsible companies gain positive reputations and increase financial performance
- > Environmentally conscious supply chain is valued and recognized by stakeholders today more than ever

Supporting Local Community

- > Generates revenue for The Arc of Acadiana, while providing disabled individuals with jobs and purpose
- > Recycling center employees separate and repackage recyclables
- > Recyclables are then sold, providing revenue for The Arc of Acadiana

How the Recycle the Gulf Program Works

1. OEG's Enviro-Pak compactors are available for rent or purchase to rigs operating in the Gulf of Mexico
2. Recyclables are sorted and compacted on the rig, then shipped in eco-friendly bags to the rig's dock facility
3. Specialty containers labeled 'Recycled Waste Only' located at the rig's dock facility store incoming eco-friendly bags of recyclables from each participating rig
4. OEG manages the logistics of collecting and exchanging the bags, as well as delivering them to The Arc of Acadiana
5. Contributions are accounted for by company and monthly reports are posted to an online customer portal
6. The Arc of Acadiana employees grade the recycle materials
7. All revenue from recycled materials is donated to The Arc of Acadiana

Acceptable Materials
Plastic | Paper | Aluminium | Cardboard

Unacceptable Materials
Glass | Wood | Hazardous Materials
(excludes cardboard with oil)
