

# Portable Welfare Solutions

## Welfare Multi-Unit

PWS has an extensive rental fleet of portable welfare solutions suitable for a broad range of applications in the oil and gas, renewables, nuclear, defence and specialist construction sectors.

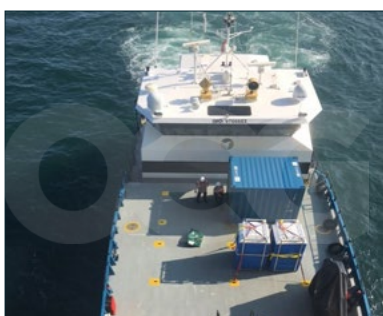

The welfare multi-unit is lightweight, easy to deploy and features non-permeable tanks that prevent spillage of waste during lifting and transportation. They exceed the welfare needs of offshore and specialist construction sites and all units are manufactured in the UK, ready for mobilisation from our global network.

Welfare multi-units are available in the following configurations: toilets, showers (chemical, standard and emergency), eye wash/first aid units, mini rigging/tool lofts and wide access units.

PWS is licensed by The Environment Agency to handle all waste generated by the units under license number CBDU186152.

Portable welfare units supplied meets the specific requirements of the latest international standards & approvals.

Welfare multi units are protected by a full granted patent GB2567933.

### KEY FEATURES and BENEFITS

- Increase safety and productivity in an offshore or specialist construction environment
- Recirculating flush style tank operated by a hand pump
- Large Health & Safety compliant sink, designed for full forearm immersion and foot operated for optimum efficiency
- Units are fitted with one way vents and neoprene lips seals to all apertures
- Lifting frames are made from aircraft grade aluminium and DNV tested and certified for a maximum payload of 1 tonne
- Multi-Units are available for rental only
- Disposal, cleaning and waste management carried out by a registered body

#### Easily deployed

#### Safe Working Load

#### Leak-free tank system

#### Cleaned and maintained

### TECHNICAL SPECIFICATION

Portable Welfare Multi Unit	
UNIT DIMENSIONS (L x W x H)	1,166mm x 1,215mm x 2,316mm
DOOR DIMENSIONS (L x H)	639mm x 1,975mm
UNIT WEIGHT	140 Kgs
MAX. PAYLOAD	1,000 Kgs
WASTE TANK CAPACITY	225 Litres
LARGE WASH BASIN CAPACITY	65 Litres
MATERIALS	Base: MD Polyethylene Roof: HD Polyethylene Door & Frame : HD Polyethylene Side Panels : HD Polyethylene Integrated neoprene seals to all apertures Non return valves fitted to all vents

E & OE  
All dimensions and weights are accurate at the time of creation. Please check exact specifications of units when ordering.

First choice for offshore cargo carrying units, waste management, A60 modules and welfare solutions worldwide for rental and sale
