Vessel provision, **temporary power and engineering solutions** for the offshore industry

manor renewable energy

an OEG Offshore company

Manor Renewable Energy (MRE) was established in 2013 and has rapidly become recognised for our knowledge and expertise in delivering temporary power and engineering solutions offshore.

MRE is capable of dealing with the many and varied challenges encountered on offshore wind projects globally; we bring together the expertise and experience of both our onshore and offshore teams of experienced marine professionals to assist us with the growing industry demand for efficient and reliable offshore solutions.

We provide all aspects of the temporary power requirement - generators, vessels and personnel – and our interface–free offering in combination with commercial acumen and a strong knowledge of project timelines, has seen the company support a growing number of small and large-scale developments.

Delivering a flexible portfolio of services built on quality, safety, honesty and vigour, with a commitment to long term business relationships.
