

## 1.0 Purpose

This Policy recognises existing OEG Offshore policies and procedures as the foundation of our Quality Management System and establishes an approach for identifying and addressing quality issues.

In addition, it provides a structure and procedures to ensure and enhance the effectiveness of the Quality Management System and its application to our products and services.

## 2.0 Scope

The scope of this Quality Policy covers all OEG Offshore products and services. This Policy applies to all OEG Offshore employees. This Policy may apply to non-OEG Offshore organisations (e.g., contractors, cooperative agreement holders and other interested parties) performing work in support of the OEG Offshore business objectives.

## 3.0 Quality Policy Statement

OEG Offshore are fully committed to maintaining the leadership position in customer service, product design, reliability, quality and competitiveness. Our reputation and capability to grow the business depends on our ability to provide products and services that are consistent, reliable and of a high quality, and which meet or exceed our customer's expectations, quality standards and agreed on-time delivery requirements together with full compliance with legislation and best industry practice.

Embedded within the delivery of our management system and processes are a commitment to quality and continuous improvement. This increases our probability of enhancing our customers' and other interested parties' satisfaction. It gives the Company and our customers the confidence that our products and services will be delivered effectively and with consistency to the standards required.

Whilst it is the overall responsibility of the CEO to ensure the quality policy and expectations are understood, implemented and maintained; the quality, continual improvement and customer satisfaction are the personal responsibility of each employee and require total employee involvement. By undertaking relevant skills and overall quality awareness training, our Quality Management System is effectively implemented.

Our policy and procedures are communicated and understood within OEG Offshore and continue to be appropriate, by initiating regular reviews to check their effectiveness and continuing suitability. Quality objectives are established and implemented within the framework of the quality management system and are reviewed and measured for effectiveness on a regular basis.

OEG Offshore will create an atmosphere of teamwork, open communication and mutual trust to effectively drive continuous improvement. We will work with our customers and suppliers to create the most effective supply chain, encouraging robust relationships at every level.
